Interactive Swagger API Documentation (OpenAPI Explorer)	http://127.0.0.1:8000/docs
ReDoc Complete API Reference	http://127.0.0.1:8000/redoc
Backend Health Check Endpoint	http://127.0.0.1:8000/healthz

3. Step-by-Step Login Instructions

1. Nasta Ghar Business Owner Portal

1. Open URL: http://127.0.0.1:5173/owner
2. Enter Email: `owner1@nastaghar.test`
3. Enter Password: `NastaGharPass123!`
4. Click **Sign In**.
5. **Features:** View live reviews, positive/neutral/negative sentiment breakdown, generate Google Review QR code, and generate AI replies.

2. Platform Super Admin Console

1. Open URL: http://127.0.0.1:5173/admin
2. Enter Email: `superadmin@platform.test`
3. Enter Password: `SuperSecurePlatformAdmin99!`
4. Click **Sign In**.
5. **Features:** Inspect cross-tenant metrics, manage global businesses, and monitor system performance without re-authenticating.

3. Digital Card Studio (Editor)

1. Open URL: http://127.0.0.1:5174/owner
2. Click **Owner Login** in top navigation bar.
3. Enter credentials: `owner1@nastaghar.test` / `NastaGharPass123!`
4. Click **Sign In**.
5. **Features:** Edit Business Name, Tagline, Phone, WhatsApp, Opening Hours, and toggle **Published** status with instant reload.

4. Multi-Tenant Restaurant / Gym Studio

1. Open direct link: .../owner/restaurant_demo/card
2. Login as: `owner@saffronspice.test` / `SaffronOwner2026!`
3. Upload Menu PDF under the **Documents** tab.
4. Open public card to confirm dynamic "Menu (PDF)" action tile appears instantly!

4. Architectural & Testing Notes

Dynamic Action Rendering: The public card only shows buttons for features that have valid destinations configured.

- **Nasta Ghar:** Has Phone, WhatsApp, Google Maps, and Review Us. (No Instagram or Menu PDF -> tiles are cleanly omitted).
- **Pulse Fitness:** Has Phone, WhatsApp, Website, and Instagram. (No Menu PDF -> strictly omitted).
- **Apex Legal:** Has Phone, Email, and Website -> Renders as a symmetric 2x2 grid.

Strict Tenant Isolation: If an owner attempts to access or edit another business's card or reviews, the shared backend strictly rejects the request with `403 Forbidden`.

5. Quick Terminal Cheatsheet (If Servers are Stopped)

```
# Start Backend (:8000)
PYTHONPATH=. .venv/bin/python -m uvicorn Backend.app.main:app --host 127.0.0.1 --port 8000 &

# Start Digital Card Frontend (:5174)
cd Digital_Card/frontend && npm run dev &

# Start NastaGhar Review Frontend (:5173)
cd NastaGhar/frontend && npm run dev &
```
